

GLS ShipIT version 5.2

What's New on webservice?

Disclaimer

This documentation captures all changes from **versions 5.x**

The decision to which backend this version is deployed on, is taken by GLS countries.

ShipIT Farm and Preview01 will always be on the **latest version** developed.

To see the currently applied version, enter the webbackend **URL to a browser** followed by `"/backend/backendinfo/name"` and the response will inform you about the version:
